## Immersion Suits

- To be worn in conjunction with an approved lifejacket
- Can be unpacked, donned and secured in less than 2 min
- Fitted with 400 cm<sup>2</sup> of LALIZAS SOLAS retro-reflective tape
- Permanent Hands cover with neoprene gloves or rubber
- Covers whole body, apart from face
- Highly visible red color
- Ergonomically tested, per MSC/circ980
- Thermally Insulated: has passed all MSC/Circ980 tests
- Diesel-Oil Resistant: has passed all MSc/Circ 980 tests
- Flame Resistant: has passed all MSC/Circ980 tests
- Has been submitted successfully to water ingress, jump and leak tests, per MSC/circ 980
- Stowage Temperature: -30°C to +56°C (Temperature Cycling Tests per MSC/Circ 980)
- Can be combined with Lifejacket Lights range

### **Specifications:**

- Neoprene material
- Neoprene gloves or Rubber gloves
- Original SOLAS retro reflective tape, code: 70180
- Buddy line with special pocket case
- Extra safe zipper. Shields the suit & prevents water penetration

**Immersion Suits Insulated "Neptune"**

**LALIZAS Sprayhood (ISO 12402-8) for Inflatable LifeJackets ISO 12402-3**

LALIZAS Sprayhood is an additional accessory suitable for every adult inflatable 150N lifejacket. It is designed to fit over the head and cover the inflated chamber; It makes the lifejacket visible due to its orange color and reduces the amount of water spray on a person's face. It's equipped with ventilation holes for easy breathing, SOLAS approved reflective tapes and it is very easy to use.

It is provided along with donning & storage instructions while in water sprayhood assembly on Lalizas Lifejackets and sprayhood folding instructions

Suitable for Sigma, Alpha, Kappa & Delta

## PLT® Rescue 230 Basic

The PLT Rescue 230 meets the IMO Solas regulation 74. You can launch 4-6 times without refilling the air cylinder. The minimum launching distance is 230 meters

PLT® Launching Unit	1
1 Air Cylinder, 300bars/4350psi or 200bars/2900psi	
1 Launching Unit	
1 Cover for air cylinder	
Launching Tube Rescue 230	1
Projectile Rescue 230	4
Typical shooting range with a dry and clean line of 3,2mm (Art No 2103): 230m. Breaking strength: 2000N	
User Manual and USB stick included	

## NO EXPIRY DATE

The PLT R 230 is the only Solas approved non dangerous Line Throwing Apparatus with no expirydate. Certificates: - DNV – MED B 6519 and Type Approval - DG Shipping – Approval 19-NT(3)/2013 - CCS - GB11T00019 - US Coast Guard - 160.040/EC0575/6519

## Day Signals

The **Day Signals** are mast head signals visually indicating the status of a vessel to other vessels on navigable waters during daylight hours. The equipment is required on board by International Regulation COLREG rules, amended. They are made of heavy-duty fabric with foldable inner framing with webbing, which is fully collapsible and offers quick and easy storage. Both ball and diamond shapes are in black color.

## LALIZAS Emergency Evacuation Breathing Device (EEBD) "ESCAPE-15"

The Lalizas Emergency Escape Breathing Device (EEBD), complies with the amended SOLAS ch.II-2 and the IMO MSC/Circ.849. All vessels on international routes must carry EEBDs on board.

### Lalizas approved EEBD carries the following characteristics:

- Flame resistant materials, silver in colour to reflect heat and be highly visible.
- Durable and reliable construction with low maintenance
- Full-face hood fits all persons
- Steady air-flow for 15 minutes with sufficient air delivery rate
- Easy visual access on the pressure gauge
- Working temperature range: -10°C to 65°C
- Easy to refill cylinder - no adaptor required
- Approved to SOLAS Chapter II - 2 and MSC/Circ.849 & designed to meet EN1146:2005 & ISO 23291-1(2008)

## LALIZAS SOLAS/MED Self Contained Breathing Apparatus

This SOLAS/MED -approved SCBA offers reliability and comfort and its key features are:

- Open circuit on demand positive pressure Self Contained Breathing Apparatus
- Anatomic carbon fibers composite material back frame with harness for perfect and easy donning
- Both back frame and harness are flame retardant, waterproof and antistatic
- With warning whistle providing a continuous sound of high intensity (>90Db) warning the user that the air is dropping down
- Packed in heavy duty plastic carrying suitcase

The SCBA contains the following parts:

- Breathing apparatus carrier with harness
- Pressure regulator with gauge & whistle
- Pressure & air flow regulator
- Breathing apparatus facemask
- Compressed air cylinder
- Compressed air cylinder valve, 300bar

- Escape Smoke Hood
- Fireman Gloves (indicate sizes)

Code.....72716

### **GasTight Chemical Suit** **Interceptor**

It is a suit for your needs be it gas, vapor, aerosol, liquids, harmful contaminants or particulate protection.

### **Chemical protection suit**

Double sided PVC coated polyester fabric 360gr/m<sup>2</sup>. 100% waterproof coverall with fixed hood, windproof and tear resistant. Bares high frequency welded seams, extra deep protective cuffs at wrists and ankles, zip closure under double storm flap with press domes. It is suitable for a variety of acids - chemicals.

Code	Size
72714	L
72715	XL

Code.....72712

### **Full face mask Promask for filter use**

A multi-function full face mask provides unrivalled comfort and protection against a wide variety of respiratory hazards. Filters not included.

- The respirator features a unique, contoured T-profile sealing edge for superior fit
- Sweat port in the chin pocket provides added comfort during extended periods of wear
- The special inner mask reduces CO<sub>2</sub>-content (<0.5%) within the mask to a minimum, thereby decreasing user fatigue
- The design prevents the visor from misting by directing the airflow across the visor
- The positioning of the filter reduces the likelihood of neck strain and permits good downward visibility
- The halo-butyl compound of the Promask black provides unmatched resistance to chemicals, ozone ageing, and to daily wear and tear
- All valves are made from flexible, long-life silicone
- Highly efficient speech diaphragm provides clear communication

Code.....72713

### **Filter for full face mask, ABEK-P3 Type**

Acid gases and vapours, e.g. sulphur dioxide, hydrogen fluoride, formic acid, solid and liquid radioactive and toxic particles, bacteria and viruses.

### **Chemical Protection Gloves**

Gloves are chemicals gloves made of nitrile flocked, thickness 0,38mm and sand patch grip design. Applications: Chemical processing and preparation, refining-oil & petrol, metal fabrication, agrochemicals, printing industry

Code	Size
72708	9

MERCERIZED & TWICE  
PRE-SHRUNK**

**Fishermen's Jackets and trousers**

Fishermen's Jackets and Trousers have a 0,35mm double PVC coating on the inside of the fabric to make it 100% waterproof and on the outside to provide extra durability. Even fish blood and grease are fairly easy to clean.

Instead of seam stitching, the different garment parts are "glued" as a second security to make it 100% waterproof. The LALIZAS Fishermen gear is designed to minimize the possibilities for nets to get caught while working. They feature full front flapped zipper and inner hand cuffs. The pants have a high bib at the front and back with elastic adjustable belt straps with buckle closure.

**OCEAN Buoy R Series**

R Series are Heavy Duty Buoys in which the rib-reinforced rock solid ropehold is made in such way, in order to provide extra strength and durability. A versatile buoy for the most adverse conditions. Marking gear for ocean, sea, river or lake, it is becoming widely popular among commercial fishermen for its durability but also among the recreational boats too.

They are one-piece made, which means that no parts are attached together to form the finalized buoy, and has consistent wall thickness and UV resistant.

Suitable for any use and any kind of boat from 20-80ft, the Ocean Buoys “fends” proudly.

- Inflation pressure: 2.1lbs/0,15bar at 68°F/20°C
- Material: Plastisol PVC
- Production process: Single procedure Rotational moulding

**OCEAN MAGNUS Inflatable fenders**

The Magnus inflatable fenders are made of reinforced PVC material. There are options with 1 or 3 D-rings attached on each side of the fender, as well as wrap around straps for better durability and strength. They are light in regard to their size, simple to use and when deflated can be stowed in small lockers. They can be quickly inflated by using any standard or electric pump and easily mounted. The Magnus inflatable fenders are available in various sizes and in black colour.

- Thickness: 1.2mm
- Material: PVC Body
- D-ring
- Wrap around tape
- Recommended inflation pressure: 2,4psi

- Welded together not glued
- Provides easy storage
- Convenient inflation and deflation
- Reinforced D-Rings
- Reinforced PVC

## LIFERAFTS SOLAS & NON-SOLAS

Professional and certified service

Lalizas Liferafts provide the flexibility of being serviced anywhere in the world, offering a global solution for both Commercial & Recreational users. Our Global Service Stations Network is fully supported by LALIZAS Headquarters, in order to maintain and evolve the quality of our After Sales Service. All authorized service stations have been approved to provide necessary actions of complete Liferaft servicing and to offer our customers:

- Detailed Testing
- Complete Product Service
- Original Inspection Certificates

## IMMERSION SUITS

Leak tight service

Every station includes all the necessary certifications to be authorized and inspect your acquired LALIZAS products. Our LALIZAS Neptune Immersion suits are found throughout the Global Shipping Industry and in several commercial vessels creating the need to be available for service in multiple ports of call.

## LIFEJACKETS SOLAS & NON-SOLAS

Making you safe within a short time

When the most famous and best selling product range of LALIZAS is escorted by a solid station network, it is quite imminent to be announced as the cornerstone of all users' requested flexibility. Inflatable lifejacket inspection is provided through LALIZAS service practice with the most flexible way to deliver your items always on time and validated through the current regulations.

## BREATHING DEVICES

Feel free to breathe safe

Making the highest standard inspections and services to assure normal operation in each device. Our Service teams around the world keep their mind and give priority on "Safety First". Our quality control goes through checking all valves, pressure gauges and even the compressed air quality to assure maximum operation for the user.

**LALIZAS**
